About the content

This magazine contains texts, selected from the English translations of our Publications:

<http://en.divinelight.org.gr/category/publications/>

The Divine Light Texts are spiritual communications received by the Channel George Pisanis during the years 1961 - 1979. They are Teachings transmitted by the Highest Authority of the Spiritual World.

The sketches at the front cover come from a collection of a visionary, late member of our Society.

Editing: Ioannis Kontodinas, Joy Condaras

On Flying Saucers

Message from the Editor

In this issue we present Texts that refer to the phenomenon of flying saucers, what are commonly called Unidentified Flying Objects. These flying objects are to be distinguished from other aerial phenomena.

These texts are also present in our publication “THE LOST CIVILIZATION OF ATLANTIS”.

The Editor

Clarification on the flying saucers (8-1-1967)

Pharah

8-1-1967

Do not be so naive and believe that it is possible that Pure Spirits transform themselves to various shapes and come down to Earth with flying saucers. The Spirit does not need another means; it is depicted with wings not because it has wings but in order to give the concept of speed.

These various forms are inventions of human beings, which work in secrecy in order to astonish their brethren upon evil. Do not forget that there is nothing hidden which will not be revealed. The Lord said this.

The flying saucers can destroy a big part of the world in a small period of time. Nobody is looking for them because they leave no traces and they cause no destructions. The first destruction will give Science the motive to occupy itself more seriously with them.

There are heavenly phenomena but people confuse them with the flying saucers. The heavenly phenomena are many times material but they are guided by Spirits of Leaders of the Spiritual World, same like the Winds. For this reason, Science is not able to determine how and when they are created.

Instead of occupying yourselves with the nonsense of people, it is preferable that you comment on the Word of the Lord and derive from it superior knowledge.

Pharah

About the flying saucers [A'] (13-2-1969)

Euclid

13-2-1969

Do not be gullible to the rumors spread by people whose imagination is flooded with earthly knowledge. The flying saucers are not objects of the Evil Spirit. The Spirits do not need such means; they are free, whether they are good or evil, to intervene to the life of people through the Word only, thus influencing the entities.

If the Daemons indeed used these means, why shouldn't the good Spirits use them, as well? And in this case you would have been eyewitnesses to the fact that there is a big difference between them..

I say, do not be gullible to the nonsense of people. These objects are of human achievement. You will ask how, since this object has a chemical consistency which is different than what you know; in other words, its matter is unknown to science.

You don't think it is possible that a secret remains covered for so long? And yet, it does. If somebody explained to you what it is, you would remain speechless. Here lies the big problem. Somebody else will tell you about this, an expert in these matters. If, on the other hand, they had a criminal nature, they would have harmed you a long time ago, because they are superior to you. Doesn't this tell you that they are not determined to harm you?

The human beings that are inside these objects do not differ at all from the common people of your Earth. You know that, human beings like yourselves do not exist elsewhere in the Great Universe of the Creation. Therefore, you ask yourselves what they are.

Do not be curious. The Spiritual World will tell you what they are because there will be a great commotion about them and nobody will be able to give an answer but you. For this reason, we do not reveal the mystery.

We said before, there will appear other mysteries, as well; not flying saucers but strange phenomena for which we will await for Science to give an answer and the latter will be ridiculed when you give the real answer to it. This is what the Spiritual World prepares. Through matter you will astonish them, since they do not become wise.

Euclid

About the flying saucers [B'] (20-2-1969)

Euclid

20-2-1969

As you know, my specialty in the Spiritual World is to transmit, where the Spiritual World specifies, a few past lives because I hold in my hands the Book of the human Actions. In addition, many times I inspire future pictures which will take place in the earthly life.

The Spiritual World assigned me to tell you not to pay attention to what your scientists spread about the “flying saucers”. Everything that is said is myth. The truth lies on the other side. Since a long time ago we could have been able to enlighten you on this matter but the Lord has forbidden this. And we remind you that, years ago we transmitted texts that said that there will appear many phenomena, which Science will be unable to explain. Since scientists are human beings with some qualifications and a developed bad nature of egoism, the Spiritual World will ridicule them!

Let them say what their wild imagination perceives. The time will come when you will transmit the correct solutions to their questions. It is not only the “flying saucers” but other phenomena, as well, which the scientists confuse with the former, so that their spirit is deceived and they do not know what they are saying.

We keep our promise; and the people of the spirit have already started to become confused. I repeat, nowhere in the Universe is there being similar to man, except for the Spirits which, when they come down to Earth, they borrow their “astral body” in order to have a form and be recognized by their familiar or friendly persons.

The flying saucers are human. Who are they, though? Be patient and the expert on these matters will tell you what they ask from the man of vanity. You will hear many things about them: that they exited the saucer and they spoke with the villagers. In what language, you will ask yourselves. In the language of the country where they landed. Others will tell you that they perceived what they (the beings in the flying saucers) were saying by intuition. Do not give faith to these because only the Spirits talk in such manner; and they do not need the flying saucers to astonish you.

Euclid

About the flying saucers (15-1-1970)

Thomas Edison

15-1-1970

My friends, I am very uneasy about my great country. They started off good and they proceed wrongly. What tortures me is how my compatriots will stand against the flying saucers. These are earthly and not heavenly. Their composition is much different than everything your world has known; the mixture of the burning interaction is unknown to science.

Those who have in their hands the flying saucers, or "cigars" as you call them, survey everything. They were able to cancel sound through anti-sound and this antithesis cancels the radars. Their speed is such, that in two minutes they are able to circle around the Earth. They are able to increase this speed but they will collide elsewhere. I refrain from telling you who they are, in order not to bring confusion.

Nobody is acting with an evil purpose; rather the people, in other words the citizens of your world act against them with a bad disposition. If they want, they will overpower you without hesitation. They are a secret group of intellectuals and they have at their service specialized and dedicated partners. We said before that a specialist Spirit will talk to you about them but the appropriate time has not come yet. I know that you would like to ask many reasonable questions but I am not the proper one to answer; there are prohibitions.

Brother (to Euthymios), this secret science cancels all things. A flying saucer is able, through its light, to pause all mechanical devices, to freeze the people so that the latter cannot move, to interrupt the electrical illumination of the cities, to attract an airplane towards its body. It has a magnetic, attractive power towards certain objects. I will not go any further. With some thought and logical research you will realize who they are. I want to say who they can be.

Question: ... These forces belong to a nation?

EDISON: They do. I have opened your eyes; the rest you will learn from other brothers.

Edison

About the flying saucers (19-7-1973)

Anaxagoras

19-7-1973

For ten years the Spiritual World avoided clarifying to you a point which interested the whole world out of pure curiosity.

A lot has been said from scientists, intellectuals, people of the military and from other powerful people and people of the spirit! Nobody, however, found the truth and the truth will not be given to anybody, if the Spiritual World will not speak on this matter and explain to you the reason why you should, at last, learn the truth!

Who, from the Heavenly Teachers, however, will come to enlighten you on this issue? Not me, of course, because I have been a philosopher of the ancient time and I did not occupy myself with experiments and similar actions. An old brother will come, however, during the new period of the beginning of the Communications, in order to enlighten you on the Flying Saucers.

Are all these things true, indeed, or false? It is neither that nor the other!

Do these flying bodies exist in the Heavens?

They exist! Not in that degree, however, so that everybody thinks that there comes an attack of alien entities to conquer the Earth!

If we assume that these alien beings exist and are much more advanced than humans, this means that their progress is unimaginable. And indeed, they are much more advanced in the intellect. Why should they conquer the Earth, since their intellect is much superior to yours? For what reason should they exterminate humanity, when these beings have a more advanced spirit than yours?

You are the ones who would attack them first! And you know well what happens when a cat attacks a lion.

Despite your spiritual progress, you lack judgment and reason. You are the preys of the imagination of a myth, which does not foster the truth but the lie.

Wait, therefore, for the appropriate Teacher to teach you about the flying saucers.

Anaxagoras

About the flying saucers (11-10-1973)

Empedocles

11-10-1973

I do not know, my dear brothers, why the Spiritual World has chosen me to give you some explanation about the flying saucers. What do I have to do with the flying people who are inside the saucers? Because it is humans who are inside them and not extraterrestrial beings.

No other beings from your solar system have ever come to Earth. You want to know, though, who are these people who possess these saucers. Am I allowed to name, however, those who are getting prepared to conquer your whole Planet? It is better for me not to mention names but to assure you that the saucers are an invention of people of your Earth.

In earlier times, pre-Christian and even deeper, if one studies pre-history, these kinds of phenomena existed, as well, and they were nothing else but those of the Atlanteans. And instead of the people of your modern, advanced time to say: "Maybe there existed on Earth civilizations superior to ours, and the people of that time were scared of them and mistook them for gods?" On the contrary, instead of making this thought, your modern all-wise men, who usually loose their senses, started to spread the opinion that (beings) from other stars came and populated the Earth!

Let them prove it! I want proofs, so that I can prove their stupidity!

You, it seems, are not able to think like reasonable beings. Otherwise, you would say: "If, indeed, there were humans more advanced than us in other stars, long time ago they would have come into contact with Earth" as did the Atlanteans with other people, much inferior in their mechanical progress.

Man, as you have known by the Spiritual World, is unique in your Earth. In other stars, outside your solar system, there are beings much different than man and they have no relationship to man.

If, however, we assume that these stars were populated by humans and these were more advanced in their intellect by the earthly humans, why would the former cross a distance of 10, 20 or 30 light-years with their flying saucers (if they had such things), in order to come and visit you? To gain what, since there are other stars closer to them, much superior to your Earth? Therefore, something else is happening.

People's imagination has gone off rails and some have spread the rumor that there are such saucers, coming from an unknown place! Immediately, many people

who like to play jokes on humanity, created some small saucers of this kind, in order to deceive humanity.

Now, there is also some confusion between such saucers and the phenomena of Heaven.

Apart from that, however, there are also real saucers, which are moved with 3 different forces. These saucers are a human invention and, for most of the time, they spy on countries which interest them most.

Since, therefore, the origin of these saucers, which are sometimes moved with rays and other times with their own energy, is human, it is up to you to keep a watch on them and convince yourselves of what I mention to you.

In some of these saucers there are robots. In others there are disguised men, also women in some cases. Some of them speak Spanish, others again only English, others German. Sometimes they are tall, sometimes they are short! And all these things, in order for them to astound you!

In Russia, they found debris of a saucer, inside of which there was a strange being. It was a poor animal, which they enclosed inside this device, for test, after this animal was put under a martyrdom of injections, so that, as disfigured and unknown to Zoology, you receive it as a being from another star!

Be assured, more than ever, that the flying saucers belong to humans, in order to play their role later. Do not believe in what people say and present before your eyes. Let another Leader give you more details.

Empedocles

About the flying saucers (13-11-1976)

Henri Poincaré

13-11-1976

My dear, today I will not talk on my Field but on another, related Field, even though the latter seems very different to you.

As you know, the distances are covered faster as time passes. It is easier to you now, to travel from Europe to any other Continent with such a speed, as you would not imagine 150 years ago. We have stressed many times that the Planets, which lie from each other at great distances, are not inhabited by humans, as are in your

Earth. And yet, many scientists assert that they will find something on the Moon, and especially on Mars. They have started off with erroneous imagination.

Thus, before the relative research starts, with the means that Science possesses today, We have timely warned that, not only in the Planets but in other, distant stars, as well, there is no human life! There are invisible beings, much different than man. Nobody believed that! They even doubted if Heaven was speaking the truth or it was lying!

Do not, therefore, kid yourselves that flying saucers enter the earthly atmosphere from the Planets! Scratch out all the myths that have been said on this point. We have answered to these myths in a timely manner.

I said that there are other beings, immaterial. Then, the flying saucers should also be immaterial if they came from the Planets. Since they are visible, this means that they are material inventions with other mixtures, which common scientists do not know.

Do you think they come from very distant stars? This is impossible because beings at a superior spiritual level do not need your Earth, since there are stars which are much superior even to your Earth.

People talked about Mars and, as the photographs display, this planet is rather rocky and has no green. This is what they have shown you! Mars, my dear, has green and trees, different than yours. This also means that there is water. Your scientists examined a very small area and you cannot draw any conclusions from that.

In Mars there are rare metals, which do not exist on Earth and they are more durable than the toughest metals of your Earth. There are intact minerals but you are still little to realize what you could find inside your earth. This is a characteristic of man, not working on the cultivation of his inner wealth and willing to exploit the foreign wealth, which does not belong to him!

Referring to the great minds of Science, who talk to you on subjects which they possess sitting in round tables, I wonder how you pay attention to them! They don't know what they are saying! Through some terminology, which is not known to most people, they dazzle their audience with incomprehensible things. Instead of doing good to the society, they confuse it even more. And this is done, where? In the country which first gave to the whole World the first light of Knowledge, though freedom and free speech.

I have diverted from what I wanted to say, i.e. the flying saucers. They are devices made on Earth and not in outer space. How they function without making any sound and with such a speed and how they block any foreign body which would

come into collision with the flying saucer is a case which will be explained to you by the appropriate Leader of this Field, perhaps by Archimedes. This is the introduction to the subject "flying saucers".

Henri Poincaré

On flying saucers (12-6-1977)

Archimedes

12-6-1977

G. PISANIS: Our dear Archimedes, I do not want to learn who the people who have the flying saucers are but, if it is allowed, tell me a few things about the invention of this mechanism.

ARCHIMEDES: My dear, indeed we are not allowed to inform you in whose hands they belong. The flying saucers never pursued people. If this has happened in many cases, this was done so that nobody learns exactly that which you now want to know.

This achievement does not have only the shape of a circle but also the shape of a cigar. Their mechanism is the same but they differ in some points. There are big flying saucers containing two or three smaller ones, in which there are two or three people, at the most, who track the environment. The devices which have the shape of a cigar can contain more people, five or more.

Their mechanism is complicated but very simple for the pilot. They cover huge distances within 1 or 2 minutes and they can also track distant stars within a few hours. For this reason, they must not become known to the human race.

There are small stars which have a fertile ground. They are not inhabited by people, like human beings; they can be adapted, though, to the climatic conditions of the ground.

They (the flying saucers) move with the help of electric rays of such intensity, that man is not able to calculate this energy in depth. This mechanism has the advantage of absorbing cosmic energies from the ether, thus doubling its speed and, at the same time, through counter-sound, you do not realize its presence. Through other special rays, it can also render useless any body of earthly origin in the sky, in other words to dematerialize it.

It also has the ability to levitate in the air and, through its rays BC, to stop all electric power of a city or even its surrounding areas. This depends on the intensity which the pilot gives to this energy. It even has another energy, which stops the thought of people who may accidentally pass by the point where the flying saucer lands; this is a kind of electric hypnosis and, when the saucer leaves, the people who have lost their memory recover and think that they had a vision.

This crafts which you call flying saucers have many kinds of radiations, like the green light, the yellow, the white, the violet, the red and many others.

They can reach the Moon from the Earth in very little time. Despite the fact that the Moon sends its own magnetic currents, which hinder their flight in a way, these hindrances are negligible for the immense speed of the saucers.

You ascribe the flying saucers to extra-terrestrial beings; this was a mistake of your imagination.

Some people who are in direct contact with the flying ones, were able to travel to the outer space. These scientists do not need the human laws; they know what they are doing and what their duty against the Creation is.

There are also heavenly phenomena which you confuse with the flying ones because, for you, these are phenomena.

I could give you many more explanations but it is better that your information stops here.

Archimedes
